

# Quote Price Confirmation

Quote Price Confirmation is the step where the proposed order price is verified and confirmed before the order is finalized. This ensures pricing accuracy, compliance with discounts, and customer approval.

## Key Steps in Quote Price Confirmation

### 1. Select the Order

- Choose the order that has passed inventory confirmation.

### 2. Review Quoted Price

- Check product prices, apply discounts, taxes, and shipping charges.
- Ensure the final quote matches the agreed pricing with the customer.
- **Accept** → Approves the quoted price, and the order moves forward to the next stage of processing.
- **Reject** → The order is cancelled.

**After quote confirmation the order is moved for payment update**
